STREET LIGHT

Street light

SPACE

Special Mould

Generation 4

Features :

- SPACE streetlight luminaire is a groundbreaking model for compactness and elegance.
- A distinctive LED streetlight luminaire characterised by efficiency and innovative design.
- Designed as the ultimate multi-purpose streetlight luminaire, SPACE is fully adaptable and can be equipped with combined optic lens for a wide variety of road requirements.
- SPACE streetlight luminaire fits in perfectly in any urban environment, whether traditional or contemporary.
- This range was developed to incorporate two different sizes of streetlight luminaire with a wall bracket and a rear bracket version so that streets, side-streets and large pavements can be lit using same streetlight design.

Specifications :

- High strength, anti corrosion, die-cast aluminium body.
- Electrostatic powder painting, for harsh outdoor applications.
- Maintenance friendly.
